EDUCATION

Vellore Institute of Technology, Bhopal   **CGPA: 8.1**
Bachelor of Technology in Computer Science   *Sep 2021 - Jun 2025*

Stepping Stone Inter College, Gorakhpur   **Percentage: 79.65**
Intermediate (CBSE)   *Apr 2020 - May-2021*

TECHNICAL SKILLS

Languages: Python, SQL

Frameworks: Pandas, Numpy, Matplotlib, Seaborn

Developer Tools: PowerBI, MySQL, Excel

EXPERIENCE

Data Analyst Intern   **June 2024 – September 2024**
Logitok   *Remote*
- Data Analyst Intern, responsibilities included analyzing and managing sales data for transported products, delivering key insights to support critical business decisions.
- Conducted exploratory data analysis (EDA) to identify trends and anomalies, providing valuable insights into shipment performance.
- Developed dynamic Power BI dashboards with DAX to track key performance indicators (KPIs) such as Shipment Completion Rate and Potential Shipments.
- Performed seasonal shipment analysis to identify peak months (April) and low months (January), leading to improved shipment completion rates.
- Investigated shipment shortfalls in October due to address-related issues, identifying areas for operational enhancements.

PROJECTS

Customer Churn Analysis | *Python, Numpy, Matplotlib, Seaborn*   May 2024 - June 2024
- Analyzed customer churn trends using Python and its Library focusing on contract types, payment methods, tenure, internet service, and customer demographics.
- Identified high churn rates (42 percent for month-to-month contracts, 45 percent for electronic check users) and key risk factors.
- Discovered that fiber optic users (30 percent churn) and senior citizens (41 percent churn) had higher churn rates, requiring targeted retention strategies.

Project Link

Zomato Analytics Dashboard | *PowerBi, PowerQuery, Excel*   Jan 2024 - Feb 2024
- Developed an interactive Power BI dashboard to analyze Zomato's operations across 822 cities, tracking key metrics like sales, order volumes, user engagement, and city performance.
- Provided actionable insights by visualizing sales trends, user demographics, and top-performing cities, aiding strategic decision-making for improving market penetration.
- Leveraged data visualization techniques to distinguish non-veg, veg, and other sales categories, enabling targeted marketing and enhancing customer satisfaction.

Project Link

Sales Insights (AtliQHardware) Data Analysis | *MySQL, Power BI, Excel*   April 2023 - Jun 2023
- In this project, I performed a comprehensive data analysis on sales performance to gain insights into revenue, sales quantities, and profit margins across various markets and products.
- Analyzed 142M total revenue and 350K sales quantity using Power BI and SQL, identifying key trends across markets and products.
- Identified top-performing customer (Electricalsara Stores - 46.2 percent revenue contribution) and key markets (Delhi NCR - 54.7 percent, Mumbai - 14.2 percent).
